In light first two reference telegrams and of Lopez Mateos tight schedule this morning prior his noon departure, I alerted both Foreign Minister Tello and President Lopez last night at dinner hosted by latter to fact that urgent personal message from President Kennedy on matter relating security Western hemisphere expected Manila early this morning. President and Foreign Minister both graciously agreed to receive me at Malacanang prior scheduled breakfast conference between Presidents Lopez and Macapagal.

As arranged, I saw Tello at his hotel at 0615 local but he was unable contact Lopez at Malacanang by phone. We therefore agreed meet at Malacanang 0745. I returned to Embassy and heard President's statement on 0700 VOA broadcast.

Meantime message for Macapagal had been received. I therefore carried both messages to Malacanang and was able by good fortune see Macapagal first. Macapagal received President's message with calm satisfaction, said he would back US completely,
